At New York yesterday money on call was easy at 11/42 per cent.; last loan, 13/4; closed offered at 11/01% per cent. Prime mercantile paper, 324 per cent.

Sterling exchange was strong, with accommercial bills, \$4.83%.

Sliver certificates, 64%@65c; bar silver, 64%c; Mexican dollars, 50%c. At London bar silver closed at 29%d per ounce. Total sales of stock were 191,692 shares,

including: American Tobacco, 10,500; Atchison, 4,300; American Sugar, 37,900; Burlington, 11,400; Chicago Gas, 5,000; Louisville & Nashville, 4,700; Manhattan, 12,300; Northern Pacific preferred, 5,200; Reading, 8,400; St. Paul, 16,600; silver certificates, \$10,000; Tennessee Coal and Iron, 11,300; Western Union,

There was a larger volume of trading on the New York Stock Exchange yesterday than for a good many days. The activity was practically confined, too, to the first few minutes after the opening, when the whole list tended downward, and to the last hour, which saw a small rally and general net gain on the day's transactions. The slump in prices at the opening was wholly due to the influence of the panicky condition of mind reported on the continental bourses and to the fall of consols and other securities in London. American securities were affected in London along with others, and the opening prices here were on a level with London quotations. The opening of hestilities reported to have occurred be tween Greece and Turkey indicated to the minds of the traders that an embroilment of the European powers was an inevitable consequence, and they sold accordingly The bears were not slow to press the advantage thus offered, and they found still further argument for lower prices in the hearing of the legislative inquiry into trusts in progress in New York city. London also selling in the market at the opening. Although this selling movement lasted only a few minutes after the opening, the industrials and the international stocks all regstered material declines while it lasted. Thus Sagar fell in price %, Tobacco %,

Chicago Gas 1, General Electric 1%, Leather preferred 1%, Rubber preferred % and American Spirits preferred 1%. The coal and iron companies were also especially susceptible to the bear efforts, owing to the conditions in the iron-ore and steel-rail trades. Colorado Fuel lost 2½ points and Tennessee Coal and Iron 1¼. Illinois Steel was a notable exception to the depression in this group and maintained aggressive strength throughout, ultimately closing with a gain of 2. Of the railway list the international stocks were most notably effected by the early decline, the range being as follows: Atchison preferred, 14: St. Paul and Lousiville & Nashville. %: Kansas & Texas preferred, 1%; Reading, 1%; Northern Pacific preferred, %; Southern preferred, ½. The volume of sales fell off at the lower level and a period of stagnation and almost utter apathy ensued quotations only being registered at long intervals. It was not until the closing hour that a rally set in which proved more general and animated than any movement of stocks for many days and which carried the average price of securities to the highest of the day. The rally was doubtless due, for the most part, to the more favorable aspect of affairs in Europe as reflected from the various bourses and from London. A conviction seemed prevalent that the powers were in substantial accord in their intention to prevent the Greeks from attacking Crete. London bought quite heavily and a general tone of assurance and confidence pervaded the market. The increase in the east-bound shipments for the week also had a sustaining influence. The following figures show the gains recorded in this rally: Sugar, 2; Tobacco, 11/4, with a Reinal reaction, however, of %: Chicago Gas, General Electric, 1; Leather preferred, 13; Rubber preferred, 13; American Spirits preferred. %; Colorado Fuel, 1; Tennessee Coal and Iron, 2%; Atchison preferred, 14; St. Paul, 1; Louisville & Nashviille, 11/8;

The bond market displayed a reactionary tendency, the recessions caused by the same influences as those in stocks. The dealings were mostly confined to the lowpriced issues, with Atchison adjustment fours and Kansas & Texas seconds registering the extent of losses 11/2 and 1/4 per cent., respectively. The changes in the less active mortgages were not material save in a few instances, with International and Great Northern seconds conspicuous for a rise of 3%. The market displayed some irregularity in the later session, and Reading first incomes and Atchison adjustment fours rallied sharply. The general tone, however, was heavy and the closing weak. The sales were \$1,450,000. Government bonds were in brisk request, with some improvements in prices on purchases by prominent banking interests, The sluggishness of the general speculation is forcing considerable amounts of in-

LOCAL GRAIN AND PRODUCE.

At Cincinnati-Clearings, \$2,632,850.

Good Trade for Monday in Several Lines, and Firmer Prices. On the wholesale streets yesterday trade was quite active. The dry goods houses had a num-

ber of buyers in, and mail orders were good. There is more firmness to prices in most lines. Grocers had a good day. Traveling salesmen Saturday brought in a good number of orders. For sugars and provisions there is quite an active demand, the tendency to higher prices quickening trade. Canned goods are moving better. Hog products are moving freely, nearly all descriptions being a shade higher. Leather dealers had a busy day as well as druggists. Eggs are scarce and firm at quotations, while poultry and butter are both weak. On Commission row, tual business in bankers' bills at \$4.87@4.87% as usual on Monday, trade was quiet. Mild for demand and \$4.85@4.85% for sixty days; weather has helped trade somewhat with them, posted rates, \$4.85@4.851/2 and \$4.871/2@4.88; still it is not up to expectations. Stocks of fruits and vegetables are still large, and prices correspondingly low. The hide market rules firm and steady, but rather inactive. The local grain market showed more activity All cereals which this market revesterday.

NEW YORK, Feb. 15 .- In consequence of the very large number of buyers in the market the jobbing trade disclosed a very much greater inquiry that was succeeded by considerable busi-ness, which promises large sales for the week. For regular printing cloths the market was quiet but firm at 2 11-16c. Among commission houses the personal demand generally was on a more molerate scale, but the order request was very much better, though individual requirements were for such assortments as were actually necessary to meet the demand at hand.
